WHEN AT THE  
FLYSITE.

## Carmona Fly Site

Just 40 min drive from Makati is a pristine Paragliding spot. If you love the spirit of free flying then begin your experience by booking a Tandem Paragliding flight.

### What to Bring

Meeting time is at 8:00am, best time to fly is in the early morning. Bring hat, sun block, shades, long sleeve jersey. Wear outdoor shoes, SLIPPERS ARE NO NO.

### Meeting Point

Flysite is located on a vast open field near a small mountain. Once you reach there please call our representative on +63 916 288 5355. There are no provision such as shops, restaurants or toilet at the site, however, our reps are always ready to assist you. Bring light snacks, juice and water.

### Nature of Paragliding

Paragliding is 100% weather depended, sometimes we have to wait for the right wind conditions. Come with positive attitude because waiting for the right condition to fly is part of Paragliding. The reward is always great! Always talk to the pilot or the ground team they will be more than happy to assist you at all time.

## Attention

Just like any other outdoor activity you have to first travel to get there and interact with many strangers on the way, and every place has its risks and rewards. When at Carmona flysite avoid interaction with people who are not assigned to you by your tour operator. There might be other locals who would want to interact with you to make some decent living to sell food or provision, please always seek assistance from our ground team should you need anything.

### WHEN GOING EXTREME!

There are other private small operators who are present at the flysite, non of those tandem pilots are affiliated with Paragliding Philippines Inc, or its affiliated partners [klook.com](http://klook.com), [metrodeal.com](http://metrodeal.com) or [booking.com](http://booking.com). Our certified pilots are strictly instructed to use only certified wings in proper weather conditions. We do not take risk nor chances. Multinational Travel Corporations demand strict safety standards that is why they work with Monitor Gear and not with small tandem operators. Our utmost concern is safety and we will never compromise. We have put in place easy system for refund in case your flight is grounded or cancelled for safety concerns. Every extreme sport carry inherent risk, always have positive attitude and beware of being pushed to danger.
